**Subject:** New Notice - Broken Arrow, Inc. - Skull Valley - M/045/063

Hello Jim:

We have received a new notice from Broken Arrow, Inc. for a large mine operation. This was formerly permitted under an exploration notice. We sent you notification at that time and you stated no survey had been conducted. We informed the operator of that. He thought they had completed and paid for a survey to be done and he will check his records in that regard.

Please advise if you have received anything on this location.

Section 36, T1S, R8W, Tooele County.

I faxed a copy of the notice and map to you just a few moments ago.

Thank you for your immediate response to this request.

Joelle
